

## WordPress Developer - Maksym Marko

Freelance May 2013 - These days

WordPress Developer | WebSite Improve | Error Fixing

Website development, improvement and assistment. Wordpress, PHP, JavaScript, HTML, CSS.

Web Developer with 5+ years' experience creating online shops, blogs, landing pages, WordPress modules (plugins) etc. Website improvement and error fixing. Website development assistment. Worked for clients from Switzerland, Australia, Germany, the Czech Republic, the USA etc.

Key skills include:

Expert in Wordpress Theme and Plugin development. Website development assistment.

Fluent in website error fixing (PHP, JavaScript, jQuery, HTML, CSS).

Can work with Laravel, Zend Framework, ReactJS.

Professional experience:

HTML \ CSS coder (May 2013 - August 2015)

I was creating HTML \ CSS templates for future websites.

WEBSITE DEVELOPMENT ASSISTANT (September 2015 - until now)

Being on this position I have been helping my clients to improve their websites and fix existing errors.

WORDPRESS DEVELOPER (November 2015 - until now)

I have been working with my favourite technology in WEB - WordPress. I create websites and different modules (plugins) for WordPress.

Notable accomplishments:

WORDPRESS PLUGIN SKELETON (WPPS)

WordPress Plugin platform (Framework) has been developed

(<https://github.com/Maxim-us/wp-plugin-skeleton>). WPPS allows to deploy a new plugin project quickly. In several minutes developer can start creating a plugin.

LOTS OF WORDPRESS MODULES AND NOT ONLY

My github profile (<https://github.com/Maxim-us>) consists of many modules for WordPress development process. Also, there are code snippets, that help in website development (JavaScript, PHP).

WORDPRESS.ORG PROFILE

There is my WordPress.org profile where my plugins are approved by WordPress experts.
