

Maksym Marko

WordPress Developer

with deep knowledge of PHP and JavaScript

I offer quality solutions for WordPress websites using modern technologies such as AJAX, Reactivity and API integration. I can create websites from scratch and improve them. **I really love creating complex and useful stuff.**

I work with clients from the United Kingdom, Switzerland, Australia, Germany, Czech Republic, Denmark, United States, Canada etc.

Location: Ukraine, Chernivtsi Region

Main skills:

- Creating WordPress websites from scratch (themes and plugins development, PSD/Figma/XD to HTML to WordPress);
- Support existing WordPress websites;
- Integration API with WordPress websites (payment gateways, third party data integration);
- Creating dynamic functionality using AJAX (calculators, searchbars, filters);
- Extending WordPress themes and plugins using hooks and filters;
- Creating CPT, Metaboxes;
- Website speed optimization;
- Using WordPress Tools (Advanced Custom Fields, WP Migration, Polylang Multilingual, Yoast SEO, WPBakery, Elementor, Contact Form 7, iThemes Security and many others);

- Communication with clients and adjust designs to fit their needs;
- Good organizational and time-keeping skills;
- Ability to work autonomously and to use initiative;
- Good collaboration with developers, designers, and project managers

Technical skills:

- PHP / MySQL;
- JavaScript (Vue.js, jQuery);
- HTML / CSS3 (Responsive Design);
- Git / SVN;
- Photoshop | Figma | XD Adobe

Additional skills:

- Laravel;
- Vue3 (Composition api), Vuex, Vue Router;
- AWS Amplify / GraphQL;
- Google Analytics;
- Composer;
- NPM;
- HTML5;
- Bootstrap, Tailwind CSS

Professional experience:

Freelance — HTML \ CSS CODER

MAY 2015 - PRESENT
